

Virtual Assembly 01 June 2021 Principal's Message

My Dear Students Parents and Teachers,

In the backdrop of the rampaging pandemic and natural calamities we are entering in to a new academic year. Invoking Gods blessings, it's my proud privilege to welcome you all to another challenging academic year 2021-22.

“Time and tide waits for no man”. Pandemics and disasters will come and go. But we shall overcome someday.

The uncertainties regarding qualifying exams- back to home schooling, may be for another year-missing school- missing friends etc are posing great challenges we know. You will continue with blended teaching and learning until you have access to your class rooms. Take it as an opportunity to learn digital, differently, blending various tools and techniques. You will have more interaction with your teachers , more learning activities and co curricular activities also. Please get geared up for your learning activities, especially the online classes.

Last year and this year too the Board exams couldn't be conducted as planned. So the council has announced ongoing evaluation instead of the terminal student evaluation . So my dear students you will be evaluated all through your academic year using various tools. And your scores will be uploaded then and there without waiting for the final judgement day. So stay tuned right from day first for continuous and comprehensive student evaluation. The NEP- national Education Policy is also getting implemented. So you can expect some changes in the school curriculum.

I am pleased to inform you that the school is implementing a new School management software-school ERP- Enterprise resource planning, which will help better management, communication and interaction. it will keep you connected to the school in a better way.

It said when wealth is lost nothing is lost, when health is lost something is lost, when character is lost everything is lost. So build up your character also. But today great misfortune has befallen us. A microscopic virus has outsmarted

mankind. People are dying like flies gasping for life breath. Health and survival has become the top priority. So please see that you are healthy and safe.

I am here along with my staff to wish you all a very pleasant academic year.

May God bless you through out this academic year and may you have a pleasant learning experience with the benevolent support of your dear teachers and caring parents. Stay safe. Stay healthy. Thankyou and God Bless. Fr Ronald M Varghese, Principal, Trinity Lyceum.
